

## Students' report Group 15 on E-learning and Flipped Classroom Activities (IO4)

**Student's name and surname: Vestina Dzemidavičiūtė, Deimante Rakauskaite**

**Class: 10**

**Institute: Domeikavos gymnasium**

**Country: Lithuania**

**Specific in-depth topic of own home study and why this topic has been chosen (at least 200 characters)**

Our topic was air pollution, we talked about air pollution in the world, how did it happen, what is the main source of it, and what can we do to reduce it. We chose this topic because we think that nowadays it's important to know about this problem and how we should manage it.

**Comment about the activity done at home (at least 300 characters)**

We did this project as a group, so at first, each of us chose a topic for ourselves. Our theme was air pollution, while other friends decided to talk about water pollution and recycling. After that, we did take some time to collect information and learn more about our topics. Then, we gathered and started to make our slides. We started by choosing a color theme and shrift, then we decided which one of us going to talk first and started to do the topic slides. After we finished with one-topic slides, we used to take breaks to relax, so then, when we would get back to work, we would be as concentrated as possible.

**Comment about the interactive activity in the classroom (at least 400 characters)**

We started by making sure there is no technical issues, and everything worked fine. After that, we had some time to remember everything we wanted to talk about and when we felt ready, we switched places with teacher and started our lesson. My friend started by letting everyone know what we are doing today and after that we started our slideshow. In addition, we mentioned, that we are open to all the questions at

any time during our presentation, because we wanted to make sure they can understand everything perfectly. Once we finished with our slideshow, we put on the screen some videos about circular economy and sustainable development. To entertain and check, if they understood the theme correctly, we set up a little quiz and rewarded them with a sweet gift for each correct answer. This was a huge success!
